WHITEPAPER

www.polkago.net

ABOUT | Polkago

Launching in November of 2021, PolkaGO Token aims to capture and captivate the whole crypto currency sphere.

PolkaGO was created with a goal to combine an instantly recognizable \$DOT cryptocurrency and BSC platform during this bull run. PolkaGO will achieve this goal by, firstly, establishing strong brand-awareness with cutting edge graphics and engaging content, and by secondly launching big partnerships with major crypto influencers.

Our project is 100% decentralized and supported by its community. PolkaGO encourages community governance, community development, and community ideas.

PolkaGO development revolves back to its best interest towards investors by passive dividends in the form of 2 tokens (PolkaGO and DOT) and weekly lottery.

There are also further plans to release PolkaGO NFTs, to bring additional utility to the project, with more detail to be released after launch as to ensure that the initial focus remains on the growing #PolkaGO awareness.

The PolkaGO team ensures that transparency, user safety and community involvement are at the forefront of what they do.

PolkaGO, including but not limited to the overall project, token, website, smart contracts and any apps ("PolkaGO") as presented in this conceptual paper is not a licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website or within the app is intended only as a basic reference, without any effective or legal meaning of the same terms in a regulated and/or financial environment. PolkaGO is decentralized and community driven project and does not have owners, shareholders, promoters, marketers, managers, directors or other figures or entities exerting any form of governance.

The PolkaGO smart contracts are open-source, security audited, permanent and non-modifiable in any way. The PolkaGO token is strictly a utility token in all jurisdictions and is not and cannot be considered to be a "security" or otherwise regulated token of any kind. PolkaGO is not in any way e-money and/or fiat money, or an asset backed stablecoin, whether global or limited in scope.

This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, nor is it an invitation, solicitation or offer to invest in PolkaGO or acquire or use PolkaGO tokens in any way and with any expectation of profit therefrom. Any user of PolkaGO represents and warrants that such user has received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this Whitepaper or the Website, and/or using any portion or element of PolkaGO (including the PolkaGO token). The user hereby acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, token, platform, software or interface, including PolkaGO, and further disavows any claim of any kind against any community member directly or indirectly involved with PolkaGo, for any damage suffered, including total loss.
